"Transform India with Modi Citizens' Network"

Collective views of 200,000 citizens for Good Governance and Development

Central Government – What is not going well?

1. PM is trying hard to drive results but MPs and Bureaucrats do not have the same level of urgency
2. Nothing still done about bringing back black money, as promised
3. Elimination of all kinds of taxes and introduction of transaction tax still awaited
4. Action against erring heads of offices was not initiated
5. No action against the middle men - prices of food and vegetables have not come down
6. Failure to control inflation despite low fuel prices
7. No concrete steps on women security
8. No concrete actions to fight corruption taken despite detailed citizen inputs
9. No action has been taken to simplify tax laws and on bribes & corruption in tax offices
10. No progress on legal & judicial reforms.
11. Problem of drinking water and electricity supply are intact
12. Make in India only an announcement, hard to get things going on ground
13. Swachh Bharat not being flown down to states effectively
14. Sense of urgency missing in most Central Government bureaucrats
15. Communal remarks/actions diverting focus away from development agenda.

This checklist is prepared from the responses received in the 200,000+ strong Transform India with Modi Citizens' Online Community on LocalCircles, about what is not working well in the Central Government.
