"Transform India with Modi Citizens' Network"

Collective views of 200,000 citizens for Good Governance and Development

State Governments – What is not going well?

1. Most State Governments are not aligned with the Centre
2. Little or no engagement in general from MP/MLAs in their constituency/assembly
3. Arrogant behaviour of elected leaders at the grass roots thinking the Modi popularity would take care of everything
4. State Governments have failed in maintaining law & order in states
5. Failure to control crime against women/children
6. State Government/Civic Bodies are not engaged in Swachh Bharat
7. Working of the Municipal Corporations has been below expectations
8. Nothing has been done to improve solid waste management
9. Significant shortage of public toilets in states
10. States have not been able to impose rules like smoking ban, plastic bags ban etc.
11. Fuel prices have come down heavily but the commodity prices haven't come down much
12. Corruption in State Government offices is same as it was in previous (UPA) regime
13. Corruption in traffic police and police in general is same
14. Much needed anti-corruption drives are still not planned or programmed
15. No change in ease of doing business in states with corruption as it was in previous (UPA) regime
16. Health/medical facilities are becoming costlier
17. Public Distribution System of ration items is weak and unstructured.

This checklist is prepared from the responses received in the 200,000+ strong Transform India with Modi Citizens' Online Community on LocalCircles, about what is not working well in State Governments
