

## Portal to connect local communities launched

NEW DELHI, 4 MARCH: Chief Minister, Mrs Sheila Dikshit, today launched [www.localcircles.com](http://www.localcircles.com), the first local social network which will connect Delhi'ites on the virtual platform. This unique platform allows a person to connect local communities, neighbours, colleagues, parents, teachers, and others besides providing credible local information about their daily needs like health, medical, blood donation, schools, emergency services, etc.

"The web portal is the need of the hour in cities like Delhi/NCR. It is very important for people to know who their neighbours are. There is no better system to an identity-based trusted network like this," said the CM.

She said that the webportal will make available important information that a citizen needs but does not have the knowledge where to get it from. **sns**
